Personal Information

- Date Of Birth : 14/02/2001
- Nationality : India
- Marital Status : Single

Work Experience

Flutter Developer

Bluesky Technology Consultants FZE, Ajman UAE (2022 - 2023)

- Developed and launched 3 applications on the Google Play Store, achieving over 10,000 downloads and a 4.5-star rating.
- Enhanced existing app features and integrated MySQL database with API connections.
- Designed and executed various Flutter projects for both iOS and Android platforms, focusing on user experience and performance.
- Optimized app performance by 30% through efficient state management and advanced optimization techniques.

Personal Projects

Public Transportation Management System:

- Built using Python and SQL, improving real-time updates and operational efficiency for public transportation schedules.
- Developed modules for customers, drivers, conductors, and a centralized admin interface, enhancing overall system efficiency and user experience.

Blueline Tourpackage Website (Software Testing):

- Conducted comprehensive testing using both manual and automated methodologies, leading to a 20% reduction in post-launch defects. Implemented Selenium WebDriver with Java for automation and TestNG for test case management, streamlining the testing process.
- Utilized Jira for bug tracking, ensuring effective communication and resolution of issues. Applied advanced testing techniques to ensure thorough coverage and reliability of the system.

Education

Kerala University

Bachelor of Computer Applications
2019 – 2022

Higher Secondary Education

Computer Science, Kerala
2017 – 2019
